

## TRAINING SCHEDULE FOR 2022

### FREE WEBINARS

### PAID WEBINARS

*MTC Power Hour Webinars 2022*

### PAID ONLINE WORKSHOPS

*Be in the know – learn and grow!*

### ACCREDITED COURSES

*Train your way to success with MTC's accredited courses*

# FREE WEBINARS

## Staff morale and teacher support

When a critical incident such as the Covid pandemic occurs in a community, the school has an inevitable and important role in supporting the mental health of their teachers and learners. Attend this exciting webinar to learn how to “read the warning signs” and develop an empathetic approach by exploring coping mechanisms and strategies relevant to the school’s unique context.

**Date:** 28 July 2022

**Time:** 14:30 – 15:30

**Cost:** Free

## Monitor educator marking and feedback

Marking and feedback form an essential dialogue between a teacher and a learner about the quality of learning and progress that has taken place. During this powerful session, you will learn to guide your staff to give effective feedback after applying good marking principles.

**Date:** 27 October 2022

**Time:** 14:30 – 15:30

**Cost:** Free

# PAID WEBINARS

## (MTC Power Hour Webinars 2022)

### Organising events and special projects

This workshop is the solution to all your event and project management nightmares.

**Date:** 2 August 2022

**Time:** 14:30 – 15:30

**Cost:** R130

[Register here](#)

### Technological trends in teaching and learning

The latest technological trends in teaching and learning are being revolutionised with a strong focus on connectivity, versatility, and learner-centred learning. Learn more about the top trends in educational technology.

**Date:** 23 August 2022

**Time:** 14:30 – 15:30

**Cost:** R130

[Register here](#)

### Using Mathematical Taxonomy for assessment

This workshop covers how to assess using the four levels of mathematical demand, derived from Bloom's Taxonomy.

**Date:** 7 September 2022

**Time:** 14:30 – 15:30

**Cost:** R130

[Register here](#)

### Bite-sized learning

We are living in a world where multitasking is a way of life and long stretches of time to dedicate to a single activity is not always possible. Learn how to adapt your teaching and learning styles to the increased speed of the modern world by exploring this exciting session on bite-sized learning.

**Date:** 1 November 2022

**Time:** 14:30 – 15:30

**Cost:** R130

# PAID ONLINE WORKSHOPS

*(Be in the know – learn and grow!)*

## **Coding and robotics week**

Coding and robotics is the talk of the town. Let us take you on a journey of exploration to find out more about this exciting topic. Learn more about the latest curriculum and how to effectively teach your learners. We have workshops ranging from ECD and Grade R to the Foundation, Intermediate and Senior Phases.

**Topic:** Computational thinking in Coding and robotics

**Dates:**

25 July 2022 – ECD & Grade R

26 July 2022 – Foundation Phase

27 July 2022 – Intermediate Phase

28 July 2022 – Senior Phase

**Time:** 14:00 – 16:00

**Cost:** R250

[Register here](#)

## **eClassroom management and eResource management**

This workshop teaches you to effectively manage a fully-integrated eLearning environment, and manage your digital resources including software and apps.

**Date:** 1 August 2022

**Time:** 14:00 – 16:00

**Cost:** R250

[Register here](#)

## **PHET simulations for Natural Sciences (Intermediate Phase & Senior Phase)**

Often teachers do not have the resources to conduct investigations or observations in their classrooms. PHET simulations are perfectly designed to help teachers overcome this problem. This workshop will open a completely new world to you.

**Date:** 24 August 2022

**Time:** 14:00 – 16:00

**Cost:** R250

[Register here](#)

## eLesson planning

This workshop focuses on how to plan an eLesson for your digital classroom. Interact with online tools to assist in planning a lesson.

**Date:** 25 August 2022

**Time:** 14:00 – 16:00

**Cost:** R250

[Register here](#)

## Map skills for Intermediate Phase

Map skills are important as they develop our spatial thinking. Spatial thinking is the ability to visualise data and in social sciences we do this through map skills. Enroll for this exciting workshop to learn more about how to successfully deliver the map skills content to your Intermediate Phase learners.

**Date:** 31 August 2022

**Time:** 14:00 – 16:00

**Cost:** R250

[Register here](#)

## Map skills for Senior Phase

Map skills are important as they develop our spatial thinking. Spatial thinking is the ability to visualise data and in social sciences we do this through map skills. Enroll for this exciting workshop to learn more about how to successfully deliver the map skills content to your Senior Phase learners.

**Date:** 25 August 2022

**Time:** 14:00 – 16:00

**Cost:** R250

## Autism: identify the invisible disability that may be present in any classroom

Do you perhaps have a Sheldon Cooper in your class? Let us equip you to support these learners.

Autism is a pervasive development disability, often referred to as Autistic Spectrum Disorder (ASD). People with autism have difficulties in areas such as communication, social interaction, flexible thinking and sensory processing.

Let's explore this fascinating topic and look at our understanding of autism and share helpful strategies to apply in your mainstream classroom.

**Date:** 13 September 2022

**Time:** 14:00 – 16:00

**Cost:** R250

[Register here](#)

## How to incorporate ICT in the teaching of maths

How do you take your maths lessons into the 21st Century? Mathematics can be very exciting and trendy if you teach with tech. Attend this workshop to learn how to grab your learners' attention by incorporating ICT into your lessons.

**Date:** 14 September 2022

**Time:** 14:00 – 16:00

**Cost:** R250

[Register here](#)

## Coding and robotics week

Coding and robotics is the talk of the town. Let us take you on a journey of exploration to find out more about this exciting topic. Learn more about the latest curriculum and how to effectively teach your learners. We have workshops ranging from ECD and Grade R to the Foundation, Intermediate and Senior Phases.

**Topic:** Cyber safety and 4IR concepts

**Dates:**

17 October 2022 – ECD & Grade R

18 October 2022 – Foundation Phase

19 October 2022 – Intermediate Phase

20 October 2022 – Senior Phase

**Time:** 14:00 – 16:00

**Cost:** R250

[Register here](#)

## Leave no learner behind

This workshop provides practical, easy-to-implement ways in which teachers can accommodate all learners in their classroom by making just a few small changes in the way they teach.

**Date:** 25 October 2022

**Time:** 14:00 – 16:00

**Cost:** R250

# ACCREDITED COURSES

*(Train your way to success with  
MTC's accredited courses)*

Below are the scheduled dates for the 2022 online courses. You can arrange **in-house** training (online or face-to-face) on any dates if you have a group of 10 or more delegates.

## Assessor

(Conduct outcomes-based assessment)

US 115753 | NQF Level 5 | 15 Credits | 10 SACE PD points

### Dates:

3 – 7 October

**Duration:** 5 days (including portfolio support)

**Cost:** R3 950

[Register here](#)

## Moderator

(Conduct moderation of outcomes-based assessment)

US 115759 | NQF Level 6 | 10 Credits | 10 SACE PD points

### Dates:

3 – 6 October

15, 22, 29 October & 5 November

**Duration:** 4 days (including portfolio support)

**Cost:** R3 750

[Register here](#)

## Facilitator

(Facilitate learning using a variety of given methodologies)

US 117871 | NQF Level 5 | 10 Credits

### Dates:

15, 22, 29 October, 5 November

**Duration:** 4 days (including portfolio support)

**Cost:** R3 550
