UNLOCK THE TEACHER ADVANTAGE! WORKSHOPS AND COURSES

Unlock the Teacher Advantage in 2026!

Step into a year of growth, inspiration, and opportunity with our dynamic online courses, designed exclusively for teachers. This is your chance to elevate your skills, embrace fresh ideas, and stay ahead in the ever-evolving world of education. Each course has been crafted to empower you with practical strategies and innovative approaches that make a real difference in the classroom. Do not miss out on this exciting journey – explore the schedule, choose your favourites, and unlock the advantage that sets great teachers apart!

From teacher to performer

SKU: SCM0539-O

Teaching is more than delivering content – it is a performance! Learn how to captivate your learners using storytelling, humour and theatrical techniques. Whether you are a natural entertainer or a quiet introvert, this workshop will help you 'own the stage' and keep learners hooked!

Date: 24 February 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Strategies to address discipline in the classroom

SKU: SCM0512-O

With a focus on empowering discipline, this interactive workshop develops effective strategies to manage learner behaviour. It focuses on positive attitudes and the development of supportive relationships with learners to create a disciplined learning environment.

Date: 26 February 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Register here

Bridging the gap from mother tongue to LoLT

SKU: LAN1015-O

This practical workshop is designed for Foundation Phase (FP) and Intermediate Phase (IP) teachers who face the challenge of transitioning learners from their home language to the Language of Learning and Teaching (LoLT). The session explores strategies to support language development, maintain conceptual understanding and foster confidence in multilingual classrooms. Teachers will gain tools to scaffold learning, integrate mother tongue effectively and ensure learners thrive academically while adapting to LoLT.

Date: 3 March 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Register here

Artificial intelligence in the classroom

SKU: DIG0448-O

Embark on an educational journey into the future with our workshop Artificial Intelligence in the Classroom. Discover how AI can revolutionise teaching and learning experiences, offering innovative tools and personalised approaches to cater to diverse learner needs. Gain hands-on experience with AI applications, learn ethical considerations, and leave empowered to integrate cutting-edge technology into your classroom for a more engaging and tailored educational experience.

Date: 5 March 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Register here

Parents on your side: How to handle tough conversations

SKU: SCM0536-O

Ever dreaded a parent meeting? You are not alone! This workshop equips you with essential communication skills to handle difficult conversations with confidence, build trust and foster stronger parent-teacher partnerships. Say goodbye to confrontation and hello to collaboration!

Date: 10 March 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Register here

Brilliant classroom management strategies

SKU: SCM0524-O

Join us for an empowering workshop tailored to teachers seeking to enhance their classroom management skills. In this dynamic session, participants will discover the brilliant strategies and techniques designed to create a positive and productive learning environment. This workshop will equip you with practical tools and insights to handle any classroom challenge with confidence.

Date: 11 March 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Register here

Computational thinking in coding and robotics (FP)

SKU: DIG0414-O

Computational thinking is one of the methodologies used to deliver the coding and robotics curriculum content and involves the steps that come before programming and coding. It is the process of breaking down a problem into simple enough steps that even a computer would understand.

Date: 17 March 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Register here

Teaching like a pro: Engaging every learner

SKU: SCM0545-O

This workshop is designed for teachers who want to move beyond traditional teaching and create a dynamic, learner-centred classroom. Every learner has the potential to thrive – if we teach in ways that truly engage them. This workshop provides practical techniques to boost participation, apply differentiation effectively and ensure no learner is left behind. Whether you're a new or an experienced teacher, you will gain the confidence and strategies to teach smarter, not harder. Join us and discover how to engage every learner like a pro!

Date: 18 March 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Autism: The hidden disability that is already in your classroom

SKU: INC0305-O

Autism is a pervasive development disability, commonly referred to as Autism Spectrum Disorder (ASD). People with autism have difficulties in areas such as communication, social interaction, flexible thinking and sensory processing. Let us equip you to support high-functioning autistic learners.

Date: 19 March 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

[Register here](#)

Managing meltdowns and tantrums

SKU: INC0311-O

This interactive workshop equips teachers from Foundation Phase through FET with practical tools and strategies to manage meltdowns and tantrums effectively in the classroom. Behavioural challenges can disrupt learning and create stress for both learners and teachers. This session explores the underlying causes of emotional outbursts, proactive classroom management techniques and responsive interventions that promote emotional regulation and positive behaviour. Teachers will leave with actionable strategies that can be adapted for different age groups and learning environments.

Date: 15 April 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Differentiated instruction: Teaching every learner

SKU: SCM0536-O

Differentiated instruction: Teaching every learner is a practical, empowering course that equips South African teachers to meet the diverse needs of their classrooms – whether learners differ in language, readiness, interests or learning styles. Through the principles of differentiated instruction, you'll gain strategies to adapt your teaching, assessment and learning environment so every child feels supported, challenged and able to succeed. No matter your school context, this course offers tools you can use immediately to make learning more inclusive and impactful.

Date: 21 April 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Register here

Crisis management: What to do when things go wrong

SKU: SCM0541-O

Every deputy principal will face a crisis – whether it is a school emergency, discipline issue or PR disaster. Be prepared! This workshop gives you a step-by-step guide to staying calm, taking control and leading under pressure.

Date: 22 April 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Register here

Own the room: Building confidence and teacher presence

SKU: SCM0544-O

This workshop is a must-attend for teachers looking to command respect, engage learners and create a positive classroom environment. Every teacher has a voice worth hearing, but not all know how to use it effectively. This session equips teachers with techniques to project confidence, strategies for using body language and vocal variety, and tools to command attention without raising their voice. Whether you're a new teacher building confidence or an experienced teacher refining your presence, this workshop will help you own the room with ease.

Date: 23 April 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Register here

Strategies to assist learners with barriers to reading

SKU: INC0302-O

If a learner has not mastered the skill of reading, it will impact their entire life and their time at school will be frustrating and difficult. This workshop focuses on strategies that teachers can use to help learners with barriers to learning to master and improve their reading and comprehension skills. This will then help the learners to develop skills that are needed to study for all kinds of tests and to learn for understanding.

AI: How to develop your school policy

SKU: DIG0451-O

The purpose of this workshop is to equip school leaders and educators with the knowledge and tools needed to navigate the evolving landscape of artificial intelligence in education. Participants will assess their school's AI readiness, explore how AI functions in everyday life, and consider the ethical, practical and educational implications of integrating AI into school environments. The workshop will highlight key concerns, risks and benefits, and unpack how frameworks such as the Common Sense AI rating principles and the Policy Guidance on AI for Children influence responsible school policy development. Participants will also explore issues such as AI bias and align relevant elements of the "Responsible Use Policy" to AI governance. Through collaborative discussions and policy examples, the workshop aims to support schools in crafting thoughtful, values-based AI policies that promote ethical, safe and effective use of AI technologies.

Date: 25 August 2026
Time: 14:00 – 16:00
Cost: R350 per person per workshop

Critical and logical thinking in C&R FP

Boost your learners' minds with our "Critical and Logical Thinking in Coding & Robotics" webinar for Foundation Phase teachers. Discover practical techniques to develop essential skills like problem-solving, reasoning and decision-making through coding and robotics activities. Learn how to engage young minds in hands-on challenges that foster creativity and analytical thinking, setting the foundation for success in both academics and life. Empower your classroom to think critically and logically from the start!

Date: 6 May 2026
Time: 14:30 – 15:30
Cost: Free

Progression in coding and robotics

Take your teaching to the next level with our "Progression in Coding and Robotics" webinar. Learn how to guide your learners through a structured journey from basic coding concepts to more advanced robotics challenges. This webinar provides practical insights on building foundational skills and gradually introducing complexity, ensuring learners grow in confidence and competence. Empower your learners to think creatively, solve problems and navigate the digital world with a clear progression in coding and robotics skills!

Date: 5 August 2026
Time: 14:30 – 15:30
Cost: Free
