Afrikaanse Digitale Kursus vir GENERASIE Z

I can now do
the difficult
work on my
own.

We enjoy the
fresh and
exciting way
of learning.

I enjoy the
interactive
activities.

Finally it is
easy to learn
Afrikaans.

We KLIEK!

DIGITAL AFRIKAANS LANGUAGE COURSE FOR GENERATION-Z

Afrikaans First Additional Language Grades 6–12

CURRICULUM

- › CAPS aligned
- › IEB aligned

TECHNOLOGY NEEDED

- Internet connection (2 MBPS) or mobile data (LTE or 4G)
- › Smart phone
 - › Tablet
 - › Computer

COMPONENTS

- › Hard copy KLIEK workbook and eCourse
- OR
- › KLIEK eCourse only

A NEW AND EXCITING WAY OF TEACHING LANGUAGE TO GENERATION-Z

- › Afrikaans is presented in an exciting way and packaged in a format that is appealing to Generation-Z.
- › All topics in the workbook are supported and enhanced by interactive exercises, games, animations and tests.
- › If exercises or tests are completed online, the results are available immediately to enable the learner to see which questions were answered incorrectly, and remedial feedback is provided to urge learners to learn from their mistakes. This generation requires instant gratification and feedback.
- › Using technology is second nature for Generation-Z and so it needs to be utilised to the benefit of the learner and to teach Afrikaans as a school subject.
- › Using technology makes learners enthusiastic about learning Afrikaans in a way that resonates with them.
- › A unique value proposition of this programme is that it enables self-driven/paced learning. A learner that falls behind in class can now effectively continue at home at his/her own pace.

(Generation-Z learners were born between 1995 and 2015)

CONTENT

The complete language curriculum is covered by KLIEK.

- › Phonics
- › Using a dictionary
- › Complete explanations of all basic language principles and concepts
- › Vocabulary extension
- › All creative writing formats are explained and represented in interesting examples
- › and much, much more ...

THE ROLE OF THE TEACHER

KLIEK is not intended to replace the role of the teacher, but rather to enable both teacher and learner to blend traditional learning practices with technology. The teacher can decide when and how the digital components are used to enrich and assist the learning journey within and outside the classroom.

TESTS AND EXERCISES

- › Activities and tests in the workbook and on the portal have 3 levels of difficulty:
Level 1: Grades 6–8
Level 2: Grades 9–10
Level 3: Grades 11–12
- › The teacher can monitor the progress of each learner and identify areas of improvement for discussion with the learner. The KLIEK reporting suite also allows for teachers to pick up on class-wide trends which assists the teacher in adapting their classes according to learning needs.
- › A section with exam papers and tests is provided at the end of the eCourse for the exclusive use of the teacher.
- › Listening tests for all grades are also available for the sole use of the teacher.
- › Memorandums are available on the teacher platform.

LICENSE FOR THE USE OF THE PROGRAMME

- › The license for this programme is valid for a period of 2 years.
- › Each user needs to register and can create or change his/her own password.
